2. In order to make the position clear the facts of the case may be recapitualted-

In 1912, Government approved of the proposal to construct quarters for the Munsiffs at Seringapatam, Hole-Narsipur and Sagar, with the direction that the cost be limited to Rs 7,250-

In December 1913, the Executive Engineer, Hassan Division, prepared a project costing Rs 10,822, explaining his reasons for exceeding the limit fixed by Government and reported, at the same time, that the question of selecting a site for the building was under correspondence with the Judicial and the Revenue Departments-

In January 1914, the Executive Engineer submitted a site plan marking thereon three eligible sites, viz., one near the Munsiff's Court building, the second opposite to the compound of the Dispensary and the third to the left of the Yelwal-Hassan road near Madigar huts. The Superintending Engineer instructed the Executive Engineer to acquire the first named site, if possible, as both the Deputy Commissioner and the Munsiff were

Mr G/ moving up
11/11 RWS
19

RWS

11/11/19

in favour of it, after obtaining the approval of the Judicial Department thereto-

3. While this was under correspondence the Executive Engineer was requested to modify the structural details and reduce the estimated cost, so that it might not exceed considerably the limit fixed by Government. The estimate was resubmitted by the Superintending Engineer in May 1915 with the intimation that the site on the Yelwal-Hassan road had been selected and approved by the District Judge, the Deputy Commissioner and the District Medical and Sanitary officer. The estimate was therefore sanctioned for Rs 8,930 in September 1915, with instructions to include the work in the Budget for 1916-17-

Accordingly, the Executive Engineer provided a sum of Rs 5,000 for the work in the Budget for 1916-17 and called for tenders in July 1916-

4. Having come to learn that the work was about to be started, the District Judge, at the instance of the Munsiff and after inspection of the site, represented to the Chief Court that the approved site for the construction of the building was unsuited, being near the Madigars' quarters and far removed from the town,

RWS

not to speak of the difficulty of water supply in the locality. The Chief Court, agreeing with the District Judge in his views, directed in July 1916 that the Executive Engineer should be asked to stop the work, if not already commenced, pending further consideration-

5. As the Munsiff preferred the site (Survey No.79) near the Munsiff's Court, which was adjoining the Travellers' Bungalow, the Executive Engineer requested both the District Judge and the Deputy Commissioner to settle the question early and obtain orders for its acquisition-

6. When pressed by the Executive Engineer for an early decision, the Deputy Commissioner stated in November 1917 that he had moved the Revenue Commissioner to acquire Survey No.79, which belonged to the Uttaradi Matha and which they declined to make over on the ground that it was required for the purposes of the institution; and the Revenue Commissioner in reply to further enquiries from the Executive Engineer also informed him in January 1918 that, on receipt of further particulars called for from the Deputy Commissioner, steps would be taken to acquire the site in question-

The allotment of Rs 2,500 sanctioned for the work in the Public Works Budget for 1917-18 was therefore resigned by the Superintending Engineer-

RWS

7. Assuming that the question of site would be settled early, the Superintending Engineer however submitted in March 1918 only one tender received for the work and this exceeded the sanctioned amount by Rs 2,711. It was not accepted by this office as no decision had yet been reached regarding the site. The Superintending Engineer was also requested to invite fresh tenders after the final settlement of that question-

8. In April 1919, the Executive Engineer reported that in communication with the Deputy Commissioner the site question was finally settled, that he had countersigned and returned in March 1919 to the Deputy Commissioner a bill amounting to Rs 458 for the payment of compensation for the land to be acquired and that the Revenue Assistant Commissioner had been requested to hand over the site to the Assistant Engineer, so that the work might be ordered to commence. As the year was advanced the allotment of Rs 3,000 made for the work during 1918-19 was also resigned-

9. In June 1919, the Executive Engineer again forwarded the site plan for the countersignature of the District Judge, and it has not yet been returned by that officer-

RWS

This is how the matter stands. Owing to the stringency of the current Budget and, as intimation was not received of the acquisition of site early in 1919, the work was not provided for in the Budget for 1919-20 (prepared and submitted in March 1919).
